

Wolfplex

for hackers & alternative people

Wolfplex, a space dedicated to technology and counterculture

1 + 1 = 3 U(T) > +(T)
- From a B. Werber quote

Charleroi is a post-industrial town in Belgium, the largest in Wallonia.

At the hearth of the city, Wolfplex is a collection of projects mixing people, creative energies, projects and a new approach to the society.

Join us

We're in front of the Charleroi-Sud rail station at Quai de Flandre, 7.

Wolfplex Hackerspace
Open lab

"The world is full of fascinating problems waiting to be solved."

Dedicated to software development, electronics, robotics and digital arts.

Our hackerspace is open to all people who wish to share and increase his or her knowledge.

Come a Tuesday evening to our tech circle. Whether you want to revel in hackerspace thriving life, hang out with like-minded people or to get some help for a project, it's the ideal moment to discover our space.

Of course, you can check our web site and see if we're open to come at a workshop or when you want too.

Wolfplex Art
Expos & workshops

"The fool copies the artist, and the artist looks like the fool." - Malraux

We highlight local and remote artists in periodic exhibitions.

Contemporary art, street art, photographs, paintings & sculptures, we are not just showing one style or some forms but are open-minded and will consider any proposition.

We don't define what is art, but we favor synergy between creative energies and links between projects.

You

You're invited to become a member of the group and redesign Wolfplex.
